Scholarships & Cadetships

University Scholarships

Universities offer scholarships either because they want to attract the best students, or for equity reasons. There are many more scholarships than those that are mentioned on this site, and you should use the university websites and/or contact the universities to see what is being offered. Go to the [NSW/ACT Universities Info](#) page, the [Interstate Universities Info](#) page, and click on scholarships for each university. For other universities look on their websites [CLICK HERE](#). Many scholarships have closing dates for applications around the end of September. There is a great search facility on the myfuture website. [CLICK HERE](#).

Chartered Accountant Organisation's Cadetships

A cadetship involves paid employment at the same time as you're studying your business/commerce degree.

- Coulton Isaac Barber - [www.cibr.com.au](http://www.cibr.com.au) - Friday, 1 August 2008
- McGrathNicol - [www.mcgrathnicol.com](http://www.mcgrathnicol.com) - Wednesday, 25 June 2008
Grant Thornton Cadet Recruitment

We seek students in Year 12 who expect to successfully complete their secondary studies before undertaking a relevant business focused degree with an accounting major. We look for students with a strong academic record, developed interpersonal skills, wide outside interests and ideally some relevant work experience.

Moore Stephens Cadetship program

A great opportunity to combine your university studies with practical work experience.

Moore Stephens cadets will enjoy:

- Study and exam leave;
- Generous salary and financial assistance;
- A mentoring and support network;
- An induction program;
- Internal and external training and development programs;
- Part-time study while working an equivalent of 4 days per week;
- Full-time work during semester breaks;
- Continued study and financial support for a postgraduate degree or equivalent qualification; and
- Performance appraisals and career planning.

UNSW Co-op Program

The UNSW Co-op Program is a scholarship program set up by industry and the University of New South Wales to provide money and Industry Training for selected undergraduate students in the disciplines of Business, Science and Engineering.

UNSW Co-op Program Scholars receive a tax-free scholarship of $15,000 per annum, as well as structured Industrial Training (between 9 and 18 months), gaining valuable work experience with up to four different sponsors.

Coulton Isaac Barber - Chartered Accountant Cadetships

The cadetship program is offered to students who are about to complete their higher school certificate and gives them the opportunity to attend a combination of both full-time and part-time university whilst obtaining the essential on-the-job training.

During the first year of employment first year university students are required to work full time and attend university on a part-time basis. This ensures that the students gain the practical experience to assist them during their university degree studies. After the completion of the first full years employment undergraduates are offered the opportunity of working under a sandwich course approach. Under this approach undergraduates attend university full-time and work part-time for the first six months of the calendar year then during the second half of the year they work full-time and attend university part-time. This approach allows the undergraduates to complete their university degree quicker than completing it on a permanent part-time basis, whilst permitting on the job training and the gaining of practical experience in the areas taught at university.

Coulton Isaac Barber has been running their cadetship program for over 10 years and as such there are a number of fellow team members who can provide you with valuable assistance with assignments and general guidance.

Should a cadetship be of interest to you please complete an on-line cadship application by clicking here
